

Item for Agreement of Class Rep Council

ITEM NO. 2311-01 NURSES WORKING GROUP

Proposed by
Eoin Crossen (VP Academic Life)

Issue Definition

Council highlights that nursing students face unique issues not faced by the general student population, and the full-on nature of these courses mean that students in these courses may not have the ability to participate in forums such as Class Representative Council.

Council further notes previous policies passed by council:

- Nursing Issues Engagement (Renewed at S2 CRC2 2021)
- Nurses Working Group (Renewed at S2 CRC2 2021)

Issue Action

Council reaffirms its commitment to supporting student nurses while they are on placement.

Issue Mandate

The VP Academic Life, in collaboration with the Science and Health Faculty Representative, create a Nurses working group, bound by the Nurses Working Group terms of reference.

Council mandates the VP for Academic Life to report on

recommendations of the Nurses Working Group in each of their Officer Reports.

Council mandates that the Nurses Working Group be maintained by the Sabbatical Team with review each year, until the natural expiration of this motion.
