ITEM NO. 2325-15 EQUALITY OF OPPORTUNITIES

Proposed by

Sean McDonagh Abbas (IR3), Cormac Docherty (EPLN3),
Queen-Majeedat Soyemi (BNPY3), Nikodem Kawonczyk (BCL2), Ruadhain
Bonham (EPLYA3).

Background

This proposal intends to reduce intended and unintended biases, prejudices and other discriminating issues that might arise by the marker.

Action

This proposal thus aims to provide greater equality and fairness for students of all walks of life. Students must be assessed by their work and not what their names give away.

Mandate

This proposal advocates the restriction of submitted examinations and continuous assessments that identify students by both their name and student number. The student number suffices.
